“The guide is comprehensive in its coverage of key brain injury topics, and its clear language and easy-to-follow structure make it accessible to all. The guide is a valuable tool for anyone involved in rehabilitation in Ireland, providing a solid foundation of knowledge which will enable professionals, carers, and service users to optimise functional outcomes and enhance quality of life following acquired brain injury.”

*Dr. Sarah Casey,  
Clinical Psychologist in Neuropsychology*

“It is essential that those who provide care and rehabilitation support for people with brain injury have access to appropriate formal training. This workbook provides a well tested, comprehensive educational resource. This Irish edition will serve as a very welcome educational standard for those who wish to advance their ABI training in Ireland.”

*Dr. Mark Delargy,  
Consultant in Rehabilitation Medicine*

**The Essential Brain Injury Guide - Irish Edition** is a valuable resource for those working in ABI rehabilitation and associated professions. It is also a useful source of information for those with an ABI and their families.
